4/7/71 Bud- The impossible does take a bit
longer, so it has taken 18 days for me to
gain access to LIFE's King pictures. It has
been promised. This doesn't mean copies,
but it does mean that if I give them two days
notice before my next trip to NYC, they will
have them for me to examine, and with no
suggestion of any rush. They have told me that
"ouw took a whole role, that he couldn't stand the
the blood, so he took less of that kind of
picture(very good-that we do not need and
others we do), and they did give a complete
set to the FBI. We need not now assume it. It is
is fact. But as of now, I do not know when
I'll be going to NYC. I'll let you know when
I go and what I see. HW
